FDA
Docket #00P-1211/CP1
5630 Fisher Ln, Room 1061 (HFA-305)
Rockville, MD 20852

November 11, 2000

Dear Ms. Henney:

I am writing about supporting the petition by the Center for Food Safety. I am asking that the FDA support no new genetically engineered foods or products with GE ingredients until the FDA requires long term testing of all GE foods before going to market. I also hope you would support that all GE foods presently on the market be labeled, giving consumers the right to know what is in the food they are buying and eating. Thank you for your time and consideration.

Sincerely yours,

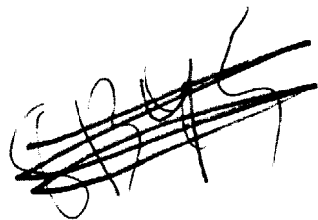

Arnold Freedman, M.D.
